Under the U.S. system of government, citizens have many rights and responsibilities. Your civics course will help you discover the most important ones. - p. 3-4. Essentials of geometry -- Reasoning and proof -- Parallel and perpendicular lines -- Congruent triangles -- Relationships within triangles -- Similarity -- Right triangles and trigonometry -- Quadrilaterals -- Properties of transformations -- Properties of circles -- Measuring length and area -- Surface area and volume of solids. Being healthy is much more than being physically fit and free from disease. Health is the state of well-being in which all of the components of health -- physical, emotional, social, mental, spiritual, and environmental -- are in balance. To be truly healthy, you must take care of all six components. - p. 11. The United States is a model of freedom, democracy, and economic strength for the rest of the world. Our continued success as a world leader depends on whether citizens like you take an active part in our government and institutions. This Civics program helps you foster student civic responsibility with a balanced approach that focuses on the principles of government, active citizenship, and responsible economic participation. Throughout Holt Civics in Practice, you will find special features that will help you understand more about your roles in your country and community. Many of these features were developed with our partners, the Center for Civic Education and the World Almanac Education Group. - Publisher.
