Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: analysis and approaches HL syllabus, for first teaching in September 2019. Drive critical, engaged learning. Helping learners more deeply understand historical concepts, the student-centred approach of this new Course Book enables broader, big picture understanding. Developed directly with the IB and fully supporting the new 2015 syllabus, the structured format helps you easily progress through the new course content. - Cover the new syllabus in the right level of depth, with rich, thorough subject content - Developed directly the with IB, with the most comprehensive support for the new syllabus - Truly engage learners with topical, relevant material that convincingly connects learning with the modern, global world - Streamline your planning, with a clear and thorough structure helping you logically progress through the syllabus - Decipher source evaluation, refine and progress analytical thinking and fully embed vital Paper 1 skills, strengthening exam performance - Integrate Approaches to learning with ATLs like thinking, communication, research and social skills built directly into learning - Help learners think critically about improving performance with extensive examiner insight and samples based on the latest exam format - Build an advanced level, thematic understanding with fully integrated Global Contexts, Key Concepts and TOK - Also available as an Online Course Book

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This workbook is specifically for the IB Physics syllabus, for examination from 2016. The Physics for the IB Diploma Workbook contains straightforward chapters that outline key terms, while providing opportunities to practise core skills, such as handling data, evaluating information and problem solving. Each chapter then concludes with exam-style questions. The workbook reinforces learning through the course and builds students' confidence using the core scientific skills - empowering them to become confident independent learners. Answers to all of the questions in the workbook are on the CD-ROM. A new book for Paper 1, Prescribed Subject 4: Rights and Protest The renowned IB Diploma History series, combining compelling narratives with academic rigor. An authoritative and engaging narrative, with the widest variety of sources at this level, helping students to develop their knowledge and analytical skills. Provides: - Reliable, clear and in-depth content from topic experts - Analysis of the historiography surrounding key debates - Dedicated exam practice with model answers and practice questions - TOK support and Historical Investigation questions to help with all aspects of the Diploma This fourth edition of Physics for the IB Diploma has been written for the IB student. It covers the entire new IB syllabus including all options at both Standard and Higher levels. It includes a chapter on the role of physics in the Theory of Knowledge along with many discussion questions for TOK with answers. There are a range of questions at the end of each chapter with answers at the back of the book. The book also includes worked examples and answers throughout, and highlights important results, laws, definitions and formulae. Part I of the book covers the core material and the additional higher level material (AHL). Part II covers the optional subjects. Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: analysis and approaches HL syllabus, for first teaching in September 2019. Completely updated by a Business and Management workshop leader to accurately match the new 2014 syllabus, this new edition includes a special focus on the new concept-based learning requirement. Every topic is comprehensively covered, plus full assessment support drives high achievement and TOK links ensure learning aligns to the IB philosophy. This is a student workbook for the IB Math HL Diploma program More info and free material can be found at: <http://ibmathworkbooks.webnode.es/> The index of the workbook is as follows: PART 1 - ALGEBRA 1.1 Types of numbers 1.2 Interval notation 1.3 Rationalization 1.4 Exponents and Logarithms 1.5 Equations 1.6 Equations with absolute value 1.7 Polynomials 1.8 Binomial Theorem 1.9 Sequences and Series 1.10 Complex numbers 1.11 Mathematical induction PART 2 - FUNCTIONS 2.1 Introduction to functions 2.2 Linear functions 2.3 Quadratic Functions 2.4 Transformations 2.5 Absolute value functions 2.6 Simple Rational functions 2.7 Exponential functions 2.8 Logarithmic functions 2.9 Radical functions 2.10 Piecewise functions 2.11 Composite functions 2.12 Inverse functions PART 3 - TRIGONOMETRY 3.1 Degrees and Radians 3.2 Definition of the Trigonometric functions 3.3 Trigonometric Identities 3.4 Trigonometric functions 3.5 Sine and Cosine Rule 3.6 Trigonometric Ratios 3.7 Inverse Trigonometric functions 3.8 Trigonometric equations 3.9 3D geometry ANSWER KEY PART 1 - ALGEBRA 1.2 Types of numbers 1.2 Interval notation 1.3 Rationalization 1.4 Exponents and Logarithms 1.5 Equations 1.6 Equations with absolute value 1.7 Polynomials 1.8 Binomial Theorem 1.9 Sequences and Series 1.10 Complex numbers 1.11 Mathematical induction PART 2 - FUNCTIONS 2.1 Introduction to functions 2.2 Linear functions 2.3 Quadratic Functions 2.4 Transformations 2.5 Absolute value functions 2.6 Simple Rational functions 2.7 Exponential functions 2.8 Logarithmic functions 2.9 Radical functions 2.10 Piecewise functions 2.11 Composite functions 2.12 Inverse functions PART 3 - TRIGONOMETRY 3.1 Degrees and Radians 3.2 Definition of the Trigonometric functions 3.3 Trigonometric Identities 3.4 Trigonometric functions 3.5 Sine and Cosine Rule 3.6 Trigonometric Ratios 3.7 Inverse Trigonometric functions 3.8 Trigonometric equations 3.9 3D geometry A practical and accessible course covering the English B syllabus (from 2011) for the IB Diploma. Suitable for standard and higher level students, this resource is written by an experienced IB English teacher following the English B syllabus. Features include activities and authentic texts to develop reading and comprehension, integrated

study ideas for IB central core, featuring LP (Learner profile), CAS (Creativity, Activity, Service), TOK (Theory of Knowledge) EE (Extended Essay), and a Glossary with definitions of key vocabulary. This title offers comprehensive learning and support for teachers and students, ideas for extensive reading material, activities to build language skills and cultural understanding for extension essays, research, exam preparation and a free teacher resources website: ibdiploma.cambridge.org. Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: applications and interpretation SL syllabus, for first teaching in September 2019. This is a series of fully worked solutions manuals for Mathematics Standard Level for the IB Diploma and Mathematics Higher Level for the IB Diploma. This solutions manual for Mathematics Higher Level for the IB Diploma contains approximately 1250 fully worked solutions to the colour-coded examination-style questions contained in the coursebook. The solutions manual details one method of solving the problem, with comments to give additional explanations where required. Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. This is a Student workbook for the IB Math SL Studies IB Diploma. The workbook covers all the chapters and includes examples of all kinds. A detailed answer key is provided with clear and complete solutions to all exercises. More info and free material can be found at: <http://ibmathworkbooks.webnode.es/> The index of the book is as follows:

CHAPTER 1 - ALGEBRA

- 1.1 Types of numbers
- 1.2 Interval notation
- 1.3 Significant figures
- 1.4 Scientific notation
- 1.5 Error analysis
- 1.6 International system of units
- 1.7 Currency conversion
- 1.8 Sequences and Series and compound interest
- 1.9 Financial applications of sequences and series

CHAPTER 2 - STATISTICS

- 2.1 Introduction to statistics
- 2.2 Frequency diagrams & measures of central tendency
- 2.3 Measures of dispersion

CHAPTER 3 - LOGIC

- 3.1 Set theory
- 3.2 Logic

CHAPTER 4 - PROBABILITY

- 4.1 Probability

CHAPTER 5 - MATHEMATICAL MODELS

- 5.1 Introduction to functions
- 5.2 Linear functions
- 5.3 Quadratic functions
- 5.4 Exponential functions

CHAPTER 6 - TRIGONOMETRY AND GEOMETRY

- 6.1 Definition of the Trigonometric functions
- 6.2 Sine and Cosine Rule
- 6.3 Trigonometric Ratios
- 6.4 3D Geometry

CHAPTER 7 - CALCULUS

- 7.1 Rate of change
- 7.2 Definition of derivative
- 7.3 Tangents and normals to functions
- 7.4 Stationary points and function analysis
- 7.5 Optimization problems

CHAPTER 8 - STATISTICS

- 8.1 Correlation
- 8.2 Chi Squared
- 8.3 Normal distribution

Data Response Questions for Economics is a companion workbook to Economics from a Global Perspective and Multiple Choice Questions for Economics. It is thus structured to the syllabus of the International Baccalaureate Diploma. It is, however, suitable for use in any introductory economics course. The workbook contains a balanced selection of contemporary articles from around the world. Each article is followed by questions. Full answer schemes are provided. The workbook aims to help students acquire and practice a

number of specific skills: To learn to read and interpret articles as an economist. To practice reading and interpreting graphical and statistical information. To widen knowledge through reading carefully chosen articles relevant to the course. To practice applying economic theory. To reinforce the skills and knowledge acquired in the economics course. To meet key economic concepts several times over. To relate classroom learning to the real world. To encourage hands on study. To gain a world perspective through reading articles drawn from all over the globe. To practice data response type examination questions. Featuring a wealth of digital content, this concept-based Print and Enhanced Online Course Book Pack has been developed in cooperation with the IB to provide the most comprehensive support for the new DP Mathematics: analysis and approaches SL syllabus, for first teaching in September 2019. Each Enhanced Online Course Book Pack is made up of one full-colour, print textbook and one online textbook - packed full of investigations, exercises, worksheets, worked solutions and answers, plus assessment preparation support. A new book for Paper 1, Prescribed Subject 3: The Move to Global War The renowned IB Diploma History series, combining compelling narratives with academic rigor. An authoritative and engaging narrative, with the widest variety of sources at this level, helping students to develop their knowledge and analytical skills. Provides: - Reliable, clear and in-depth content from topic experts - Analysis of the historiography surrounding key debates - Dedicated exam practice with model answers and practice questions - TOK support and Historical Investigation questions to help with all aspects of the Diploma An expertly written Spanish B course now updated for first examination 2020, providing students with thought-provoking materials to help them develop strong language skills and solid critical thinking. The coursebook helps students develop their Spanish language skills as they explore the five themes from the new IB Diploma Language B guide: identities, experiences, human ingenuity, social organisation and sharing the planet. Each unit begins with 'big questions' that get learners thinking about global topics such as, 'how do we express our identity?' These help students appreciate wider issues before developing their reading, writing, speaking and listening skills through international texts, practice exercises and activities in the style of the exam. Answers to questions and audio files for the listening exercises are in the teacher's resource. Ensure students can aim for their best grade with the help of accurate and accessible notes, expert advice, and exam-style questions on each key topic. - Builds revision skills through a range of strategies and detailed expert advice - Covers all the knowledge with concise, clear explanations of all the syllabus requirements and topics - Demonstrates what is required to get the best grades with tips, sample questions and model answers Answers are free online at www.hoddereducation.com/IBextras This series has taken the clarity, accessibility, reliability and in-depth analysis of our best-selling Access to History series and tailor-made it for the History IB Diploma. Each title in the series supports a specific topic in the IB History guide through thorough content coverage and examination guidance - helping students develop a good knowledge and understanding of the required content alongside the skills they need to do well. Access to IB History: The Great Depression and the Americas 1929-39 is an IB specific edition of Access to History: Prosperity, Depression and the New Deal: The USA 1890-1954. It has been revised to fully support the section of the same name in HL option 3: Aspects of the History of the Americas and includes: - authoritative, clear and engaging narrative which combines depth of content with accessibility of approach - up-to-date historiography with clear analysis and associated TOK activities - guidance on answering exam-style questions with model answers and practice questions. Support your students to achieve their best grade with the ultimate course companion; providing clear and concise explanations of all syllabus requirements, with exam practice questions to check understanding and consolidate revision. - Fully prepare for the final assessment with examiner advice on how to approach and explore each topic, including additional top tips and common mistakes. - Practice and revise effectively from a range of strategies and a variety of high achieving example answers. - Focus revision by using key terms with definitions listed for each topic and subtopic of the course. - Answers available to download for free: www.hoddereducation.co.uk/ib-extras Packed full of support straight from the IB, this comprehensive text was written by authors of the 2011 syllabus and most accurately matches the 2011

specification. Containing unrivalled assessment preparation, the challenging and engaging approach will ensure learners excel. Drive critical, engaged learning. Helping learners more deeply understand historical concepts, the student-centred approach of this new Course Book enables broader, big picture understanding. Developed directly with the IB and fully supporting the new 2015 syllabus, the structured format helps you easily progress through the new course content. - Cover the new syllabus in the right level of depth, with rich, thorough subject content - Developed directly with the IB, with the most comprehensive support for the new syllabus - Truly engage learners with topical, relevant material that convincingly connects learning with the modern, global world - Streamline your planning, with a clear and thorough structure helping you logically progress through the syllabus - Decipher source evaluation, refine and progress analytical thinking and fully embed vital Paper 1 skills, strengthening exam performance - Integrate Approaches to learning with ATLs like thinking, communication, research and social skills built directly into learning - Help learners think critically about improving performance with extensive examiner insight and samples based on the latest exam format - The license is valid until 31st December 2023, for use by a single student or teacher - Multiplatform access, compatible with a wide range of devices - Your first login will be facilitated by a printed access card that will be sent to you in the mail

Physics for the IB Diploma, Sixth edition, covers in full the requirements of the IB syllabus for Physics for first examination in 2016. This Exam Preparation Guide contains up-to-date material matching the 2016 IB Diploma syllabus and offers support for students as they prepare for their IB Diploma Physics exams. The book is packed full of Model Answers, Annotated Exemplar Answers and Hints to help students hone their revision and exam technique and avoid common mistakes. These features have been specifically designed to help students apply their knowledge in exams. The book also contains lots of questions for students to use to track their progress. The book has been written in an engaging and student friendly tone making it perfect for international learners.

Chemistry for the IB Diploma, Second edition, covers in full the requirements of the IB syllabus for Chemistry for first examination in 2016. The Second edition of this well-received Coursebook is fully updated for the IB Chemistry syllabus for first examination in 2016, comprehensively covering all requirements. Get the best coverage of the syllabus with clear assessment statements, and links to Theory of Knowledge, International-mindedness and Nature of Science themes. Exam preparation is supported with plenty of sample exam questions, online test questions and exam tips. Chapters covering the Options and Nature of Science, assessment guidance and answers to questions are included in the additional online material available with the book. The most comprehensive match to the new 2014 Chemistry syllabus, this completely revised edition gives you unrivalled support for the new concept-based approach, the Nature of science. The only DP Chemistry resource that includes support directly from the IB, focused exam practice, TOK links and real-life applications drive achievement. Reinforce and improve your students' quantitative skills with this write-in workbook, which includes exam-style practice questions.

- Prepare for the new assessment model with exam-style questions that are broken down to help students understand the question as a whole and the way they will need to tackle it.
- Questions are presented in the chronological order of the syllabus, to aid knowledge and understanding of the new course (first exams 2022).
- Provides lots of opportunities to practice quantitative skills, techniques and methods with exam-style questions.
- Detailed mark schemes are provided to support students' assessment success, from a highly experienced author, IB workshop leader and teacher.
- Answers available to download for free: www.hoddereducation.co.uk/ib-extras

This concise guide provides the content needed for the Chemistry IB diploma at both Standard and Higher Level. It follows the structure of the IB Programme exactly and includes all the options. Each topic is presented on its own page for clarity, Higher Level material is clearly indicated, and there are plenty of practice questions. The text is written with an awareness that English might not be the reader's first language

Exam board: International Baccalaureate Level: IB Diploma Subject: English First teaching: September 2019 First exams: Summer 2021 Develop competent communicators who can demonstrate a sound conceptual understanding of the language with a flexible course that ensures thorough coverage of the updated
